Work Experience

Senior Flutter Developer

Sep 2023 - Present

ANZER IT Healthcare Asia | Singapore

As a senior developer at Anzer IT Health Care, I was deeply involved in building digital solutions for hospitals using Flutter and Spring Boot.

- Led development of patient portals, consent form systems, and admin dashboards with Flutter, working alongside Java Spring Boot backend.
- Integrated EMR/EHR systems by researching healthcare standards and ensuring secure data handling.
- Coordinated with remote, international teams across time zones to deliver compliant, reliable health software.

Flutter Developer

Aug 2021 - Sep 2023

App.com.mm | Yangon, Myanmar

As Flutter Developer at App.com.mm, I worked on a wide range of commercial and retail-focused applications. I led the development of several e-commerce apps, tailoring each to meet client-specific business needs and user experience goals.

- Participated in code reviews, enhancing code quality and standards.
- Enhanced scalability and user experience for high-performance commercial use.
- Developed user-friendly mobile apps using Flutter framework.

- Collaborated with designers to create stunning UI/UX experiences.
- Implemented responsive layouts for various screen sizes and devices.
- Integrated RESTful APIs for seamless data communication.
- Conducted testing and debugging to ensure app reliability.
- Contributed to team projects, improving overall productivity.

Junior Developer

Jul 2020 - Jul 2021

TechPlusSolution | Yangon, Myanmar

As a Junior Developer at Tech Plus Solutions, I contributed to the development and maintenance of mobile applications under the guidance of senior engineers. I gained hands-on experience in Flutter, working on UI implementation, bug fixing, and integrating APIs.

- Gained hands-on experience in Agile development methodologies
- Conducted testing and debugging, improving app stability.
- Developed user-friendly mobile apps using Flutter framework.
- Implemented responsive layouts for various screen sizes and devices.
